

Playset Magazine Index

Notes

This table of contents includes issues 1 to 48. Most entries show the magazine issue followed by a page number, but no page number is shown if the article covers several pages. Issue 3 had no page numbers; page numbers shown for that issue assume PM's normal style of starting with the cover as page 1. Manufacturers of toy soldiers are shown in bold.

With a few exceptions, this list does not include

- advertisements,
- editor's page,
- letters,
- dioDrama,
- PM Puzzler,
- Marx on the Internet,
- Marx Memory columns and similar collector reminisces,
- My Side columns,
- articles on movies and similar non-playset topics, and
- a small number of short filler items.

Issues that feature Marx playsets often include 1) general background information on the playset theme and 2) information on playset items of the same theme that were produced by other manufacturers. However, items made by others have been separately indexed.
